

Teacher / Team Name: Geometry Honors

Topic: Unit 6: Quadrilaterals (HON)

Days: 15

Subject(s): Math

Grade(s): 8th, 9th, 10th, 11th, 12th

Know:

Understand:

Do:

<p>Key Vocabulary</p> <p>Polygon Interior Angles Sum</p> <p>Properties of Parallelograms</p> <p>Special Quadrilaterals</p>	<p>Properties of quadrilaterals will be recognized, compared, and applied.</p>	<p>Find and use the sum of the measures of the interior and exterior angles of a polygon</p> <p>Recognize and apply properties of the sides, angles, and diagonals of parallelograms</p> <p>Recognize the properties of parallelograms</p> <p>Prove that sets of points form a parallelogram in the coordinate plane</p> <p>Recognize and apply properties of rectangles, rhombi, squares, trapezoids, and kites</p>

Teacher / Team Name: Geometry Honors

Topic: Unit 6: Quadrilaterals (HON)

Days: 15

Subject(s): Math

Grade(s): 8th, 9th, 10th, 11th, 12th

Which standards are students learning in this unit?

MA.912.G.2.2:

Determine the measures of interior and exterior angles of polygons, justifying the method used.

Moderate

MA.912.G.3.1:

Describe, classify, and compare relationships among quadrilaterals including the square, rectangle, rhombus, parallelogram, trapezoid, and kite.

Moderate

MA.912.G.3.2:

Compare and contrast special quadrilaterals on the basis of their properties.

Moderate

MA.912.G.3.3:

Use coordinate geometry to prove properties of congruent, regular, and similar quadrilaterals.

High

MA.912.G.3.4:

Prove theorems involving quadrilaterals.

High
