Which standards are students learning in this unit?

Describe and make regular, non-regular, and oblique polyhedra, and sketch the net for a given polyhedron and vice versa.

Moderate

Identify, sketch, find areas and/or perimeters of cross sections of solid objects.

Moderate

Identify chords, tangents, radii, and great circles of spheres.

Low

Explain and use formulas for lateral area, surface area, and volume of solids.

Moderate

Identify and use properties of congruent and similar solids.

Moderate

Determine how changes in dimensions affect the surface area and volume of common geometric solids.

Moderate
